1/ El Índice de Vulnerabilidad a la Inseguridad Alimentaria (IVIA) corresponde al valor estimado de la vulnerabilidad distrital. Mayores valores del Indice representan a los distritos con mayores niveles de vulnerabilidad.
2/ Corresponde al ordenamiento descendente del valor del IVIA de los distritos, considerando a todos los distritos del ámbito nacional.
3/ Corresponde al ordenamiento descendente del valor del IVIA de los distritos, considerando a los distritos de cada departamento.
4/ Comprende la agrupación de los distritos del ámbito nacional, en función del valor del IVIA, tomando en consideración a la población del distrito. El quintil I representa a los distritos con mayores condiciones de vulnerabilidad a la inseguridad alimentaria.
5/ Comprende la agrupación de los distritos del ámbito departamental, en función del valor del IVIA, tomando en consideración a la población del distrito. El quintil I representa a los distritos con mayores condiciones de vulnerabilidad a la inseguridad alimentaria.
6/ Comprende a la agrupación de los distritos priorizados para fines de politicas e intervenciones de seguridad alimentaria, elaborado a partir del quintil del Índice de Inseguridad a la Vulnerabilidad Alimentaria de cada departamento. El grupo I corresponde a los distritos ubicados en el quintil I y II, el grupo II corresponde al quintil III y IV y el grupo III corresponde al quintil V del IVIA del ámbito departamental .
7/ Población proyectada en el distrito para el año 2018, elaborado por el INEI.

1/ El Índice de Vulnerabilidad a la Inseguridad Alimentaria (IVIA) corresponde al valor estimado de la vulnerabilidad distrital. Mayores valores del Indice representan a los distritos con mayores niveles de vulnerabilidad.
2/ Corresponde al ordenamiento descendente del valor del IVIA de los distritos, considerando a todos los distritos del ámbito nacional.
3/ Corresponde al ordenamiento descendente del valor del IVIA de los distritos, considerando a los distritos de cada departamento.
4/ Comprende la agrupación de los distritos del ámbito nacional, en función del valor del IVIA, tomando en consideración a la población del distrito. El quintil I representa a los distritos con mayores condiciones de vulnerabilidad a la inseguridad alimentaria.
5/ Comprende la agrupación de los distritos del ámbito departamental, en función del valor del IVIA, tomando en consideración a la población del distrito. El quintil I representa a los distritos con mayores condiciones de vulnerabilidad a la inseguridad alimentaria.
6/ Comprende a la agrupación de los distritos priorizados para fines de politicas e intervenciones de seguridad alimentaria, elaborado a partir del quintil del Índice de Inseguridad a la Vulnerabilidad Alimentaria de cada departamento. El grupo I corresponde a los distritos ubicados en el quintil I y II, el grupo II corresponde al quintil III y IV y el grupo III corresponde al quintil V del IVIA del ámbito departamental .
7/ Población proyectada en el distrito para el año 2018, elaborado por el INEI.

1/ El Índice de Vulnerabilidad a la Inseguridad Alimentaria (IVIA) corresponde al valor estimado de la vulnerabilidad distrital. Mayores valores del Indice representan a los distritos con mayores niveles de vulnerabilidad.
2/ Corresponde al ordenamiento descendente del valor del IVIA de los distritos, considerando a todos los distritos del ámbito nacional.
3/ Corresponde al ordenamiento descendente del valor del IVIA de los distritos, considerando a los distritos de cada departamento.
4/ Comprende la agrupación de los distritos del ámbito nacional, en función del valor del IVIA, tomando en consideración a la población del distrito. El quintil I representa a los distritos con mayores condiciones de vulnerabilidad a la inseguridad alimentaria.
5/ Comprende la agrupación de los distritos del ámbito departamental, en función del valor del IVIA, tomando en consideración a la población del distrito. El quintil I representa a los distritos con mayores condiciones de vulnerabilidad a la inseguridad alimentaria.
6/ Comprende a la agrupación de los distritos priorizados para fines de politicas e intervenciones de seguridad alimentaria, elaborado a partir del quintil del Índice de Inseguridad a la Vulnerabilidad Alimentaria de cada departamento. El grupo I corresponde a los distritos ubicados en el quintil I y II, el grupo II corresponde al quintil III y IV y el grupo III corresponde al quintil V del IVIA del ámbito departamental .
7/ Población proyectada en el distrito para el año 2018, elaborado por el INEI.
Fuente: Vulnerabilidad a la inseguridad alimentaria por departamento, provincia y distrito, 2018.
Elaboración: Ministerio de Desarrollo e Inclusión Social – Dirección General de Seguimiento y Evaluación.
Programa Mundial de Alimentos (WFP) de las Naciones Unidas en el Perú.
